Peer Review Report

Review Report on One Health in Agricultural Sectors in Thailand, Lao PDR, and Vietnam: Interconnectedness Between Awareness and Socioeconomic Factors

Original Article, Int J Public Health

EVALUATION

Q 1 ▶ Please summarize the main findings of the study.

This study showed the certain socioeconomic factors play a positive and influential role in shaping farmers' perspectives and actions related to their perception of One Health.

Overall, this is interesting study and improve the understanding of OH principles of farmers which is one of the key actor to enhance the biosecurity practices in the community and prevent animal and zoonotic diseases

Q 2 ▶ Please highlight the limitations and strengths.

Please see in the file

Q 3 ▶ Please provide your detailed review report to the authors. The editors prefer to receive your review structured in major and minor comments. Please consider in your review the methods (statistical methods valid and correctly applied (e.g. sample size, choice of test), is the study replicable based on the method description?), results, data interpretation and references. If there are any objective errors, or if the conclusions are not supported, you should detail your concerns.

Please see in the file

PLEASE COMMENT

Q 4 ▶ Is the title appropriate, concise, attractive?

Yes

Q 5 ▶ Are the keywords appropriate?

Yes

Q 6 ▶ Is the English language of sufficient quality?

Yes, but whole manuscript still need proofreading

Q 7 ▶ Is the quality of the figures and tables satisfactory?

Yes.

Q 8 ▶ Does the reference list cover the relevant literature adequately and in an unbiased manner?)

Yes
