EVALUATION

Q 1 Please summarize the main findings of the study.

A Model for Estimating the Burden of
Disease of Transfusion Transmitted
Infections

Please find my comments on the text

Q 2 Please highlight the limitations and strengths.

A Model for Estimating the Burden of
Disease of Transfusion Transmitted
Infections

Please find my comments on the text

Q 3 Please provide your detailed review report to the authors. The editors prefer to receive your review structured in major and minor comments. Please consider in your review the methods (statistical methods valid and correctly applied (e.g. sample size, choice of test), is the study replicable based on the method description?), results, data interpretation and references. If there are any objective errors, or if the conclusions are not supported, you should detail your concerns.

PLEASE COMMENT

Q 4 Is the title appropriate, concise, attractive?

A Model for Estimating the Burden of
Disease of Transfusion Transmitted
Infections

Please find my comments on the text

Q 5 Are the keywords appropriate?

Yes

Q 6 Is the English language of sufficient quality?

Yes.

Q 7 Is the quality of the figures and tables satisfactory?

No answer given.

Q 8 Does the reference list cover the relevant literature adequately and in an unbiased manner?)

Yes

QUALITY ASSESSMENT

Q 9 Originality

Q 10 Rigor

Q 11 Significance to the field

Q 12 Interest to a general audience

Q 13 Quality of the writing

Q 14 Overall scientific quality of the study

REVISION LEVEL

Q 15 Please make a recommendation based on your comments:

Minor revisions.
